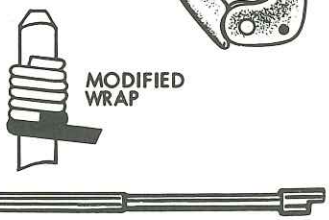
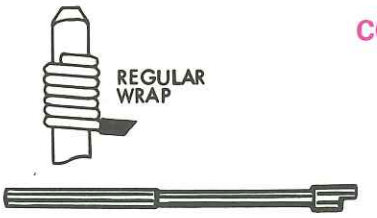
SPEED-WRAP® TOOLS

G100	Speed-Wrap Tool	$ 43.00
G100/R-3278	Speed-Wrap Tool—Chuck Type	$ 47.00



COILTITE BITS® – MODIFIED

WB3032LM	30-32 ga Modified Coiltite Bit .063 x .750	$ 17.93
WB3032M	30-32 ga Modified Coiltite Bit .036 x .625	$ 17.93
SB30MSH-B	30 ga Modified Coiltite Bit .036 x .625	$ 29.26
SB30M-B	30 ga Modified Coiltite Bit .043 x .625	$ 17.93
WB2829M	28-29 ga Modified Coiltite Bit .040 x .625	$ 17.93
WB26MAZ	26 ga Modified Coiltite Bit .069 x 1.125	$ 14.45
P26	26 ga Modified Coiltite Bit .040 x .625	$ 17.93
WB26M	26 ga Modified Coiltite Bit .075 x 1.000	$ 12.95
WB26SM	26 ga Modified Coiltite Bit .040 x .625	$ 17.93
WB2426M	24-26 ga Modified Coiltite Bit .075 x .750	$ 12.95
WB24DHM	24 ga Modified Coiltite Bit .069 x 1.125	$ 14.45
WB24DH	24 ga Modified Coiltite Bit .075 x 1.750	$ 14.45
WB24M	24 ga Modified Coiltite Bit .075 x .750	$ 12.95
WB22M	22 ga Modified Coiltite Bit .075 x .750	$ 12.95



COILTITE BITS – REGULAR

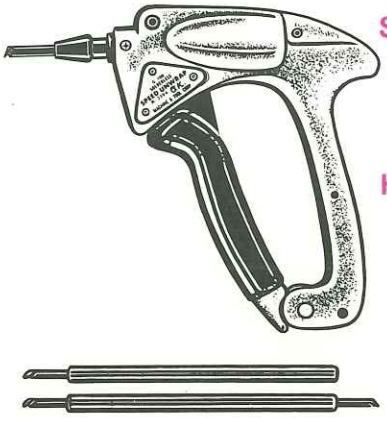
KB3032	30-32 ga Coiltite Bit .040 x .625	$ 17.93
KB26	26 ga Coiltite Bit .075 x 1.000	$ 12.95
OK2426	24-26 ga Coiltite Bit .075 x .750	$ 12.95
KB24	24 ga Coiltite Bit .075 x .625	$ 12.95
KB24DH	24 ga Coiltite Bit .075 x 1.500	$ 14.45
KB224LH	22-24 ga Coiltite Bit .086 x 1.000	$ 12.95
KB224	22-24 ga Coiltite Bit .075 x .807	$ 12.95
KB22	22 ga Coiltite Bit .075 x .750	$ 12.95

COILTITE SLEEVES – FOR POWER TOOLS

P3032L	30-32 ga Coiltite Sleeve used with WB3032LM	$ 11.74
P3032	30-32 ga Coiltite Sleeve	$ 11.74
P2426	24-26 ga Coiltite Sleeve	$ 4.88
P2224	22-24 ga Coiltite Sleeve	$ 4.88

COILTITE SLEEVES – FOR MANUAL TOOLS

S26	26 ga Coiltite Sleeve	$ 5.90
S24	24 ga Coiltite Sleeve	$ 5.90
S224	22-24 ga Coiltite Sleeve	$ 5.90
S22	22 ga Coiltite Sleeve	$ 5.90



SPEED UNWRAP TOOL

G100/R-3394	Speed-Unwrap Tool to be used with SU2026	$ 44.00
SU2026	20-26 ga Unwrap Bit to be used with G100/R-3394	$ 12.75
UWPD4157	20-26 ga Unwrap Bit to be used with Power Tools	$ 7.25

HAND UNWRAP TOOLS

UW1	20-26 ga, Regular Handle, .156 dia., .070 Hole	$ 4.90
UW2	20-26 ga, Left & Right Hand, .156 dia., .070 Hole	$ 7.25
UW3	20-26 ga, Insulated, .070 Hole, Wire Release Type	$ 6.25
UW4	20-26 ga, Insulated, .070 Hole, Wire Release Type	$ 5.75
UW7	20-26 ga, Regular Handle, .156 dia., .086 Hole	$ 4.90
UW52L	20-26 ga, Left & Right Hand, .120 dia., .052 Hole	$ 7.25
UW093S	28-32 ga, Short Handle, .093 dia., .040 Hole	$ 4.45

HAND UNWRAP TOOLS (Continued)

UW093R	28-32 ga, Regular Handle, .093 dia., .040 Hole	$ 4.90
UW120S	20-26 ga, Short Handle, .120 dia., .070 Hole	$ 4.45
UW120R	20-26 ga, Regular Handle, .120 dia., .070 Hole	$ 4.90
UW156S	20-26 ga, Short Handle, .156 dia., .070 Hole	$ 4.45
UWD93-93	30-32 ga, Left & Right Hand, .093 dia., .040 Hole	$ 7.25
UWD93-120	20-32 ga, Regular Handle, .093 dia., .040 Hole & .120 dia., .070 Hole	$ 7.25
UWD120-120	20-26 ga, Left & Right Hand, .120 dia., .070 Hole	$ 7.25

HAND WRAP TOOLS

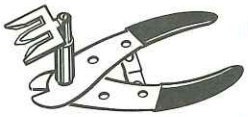
HW224	22 & 24 ga Hand Wrap Tool	$ 15.25
HW26	26 ga Hand Wrap Tool	$ 14.50
HW30	30 ga Hand Wrap Tool	$ 19.75

HAND WRAPPING/UNWRAPPING TOOLS

HW-UW 224	22-24 ga Hand Wrapping and Unwrapping Tool	$ 24.90
HW-UW 26	26 ga Hand Wrapping and Unwrapping Tool	$ 24.25
HW-UW 30	30 ga Hand Wrapping and Unwrapping Tool	$ 29.90

BARE GROUND WIRE STRAPPING TOOLS

GW-224	22-24 ga Bare Ground Wire Strapping Tool	$ 17.25
GW-26	26 ga Bare Ground Wire Strapping Tool	$ 16.50
GW-30	30 ga Bare Ground Wire Strapping Tool	$ 22.25



WIRE STRIPPING TOOL

OK3907	22-24 ga Wire Stripping Tool	$ 4.50

QUALIFICATION ACCESSORIES

505	Wire Elongation Tester	$220.00
505M	Wire Elongation Tester—Motorized	$375.00
601	Bit Qualification Test Fixture—Cam Locking	$275.00
601T	Bit Qualification Test Fixture—Cam Locking with Terminal Trays	$300.00
601T-RC	Bit Qualification Test Fixture—Cam Locking with Terminal Trays mounted on Rolling Cart	$465.00
811T	Bit Qualification Test Fixture—Air Operated with Terminal Trays	$812.00
2317	Qualification Unwrap Bit to be used with G100 Speed Wrap Tool	$ 24.90
R4008	Qualification Unwrap Bit to be used with G100/R-3278 Speed Wrap Tool—Chuck Type	$ 24.90
G100	Speed-Wrap Tool	$ 43.00
G100/R-3278	Speed-Wrap Tool—Chuck Type	$ 47.00
51T MA	Maximum Test Terminal	$ 1.89/c
52T MI	Minimum Test Terminal	$ 1.79/c
PG14	Test "Pull" Gage	$205.00

"NO-NICK" Test Wire, Cut and Pre-stripped to Proper "Shiner" Length

22MA	22 ga Wire for Maximum Terminal Test	$ .63/c*
24MA	24 ga Wire for Maximum Terminal Test	$ .61/c*
24MI	24 ga Wire for Minimum Terminal Test	$ .61/c*
26MA	26 ga Wire for Maximum Terminal Test	$ .59/c*
26MI	26 ga Wire for Minimum Terminal Test	$ .59/c*

*Minimum Quantity 500 Pieces of same part number.

KABIFIX

Cable Stripping Tool

No. CST55

Cable Stripping—No Longer A Problem With The NEW "KABIFIX" Cable Stripping Tool

Hand operated, easy to use. Cut and remove insulation from cables, solid conductors and stranded wire. Up to 1" diameter capacity. Automatic change over from circular to longitudinal cut.

Cutting depth adjustable, fast operation. Simple design with protective plating for long life. Supplied with a plastic pouch.

Weight: 6½ oz. (.2 kg)

Price: 1-11 pieces **$8.75** ea.
12-59 pieces **$8.23** ea.

REPLACEMENT BLADES No. RB55

Price: 1-11 pieces **$2.92** ea.
12-59 pieces **$2.75** ea.

SIMPLE OPERATION

1. Press the stop pawl to retract ratchet.
2. Turn adjusting screw to set height of blade slightly less than thickness of insulation.
3. Insert cable into trough.
4. Push ratchet up as far as possible.
5. Turn tool circularly (complete turn) then pull for longitudinal cut.
6. Remove insulation from cable.

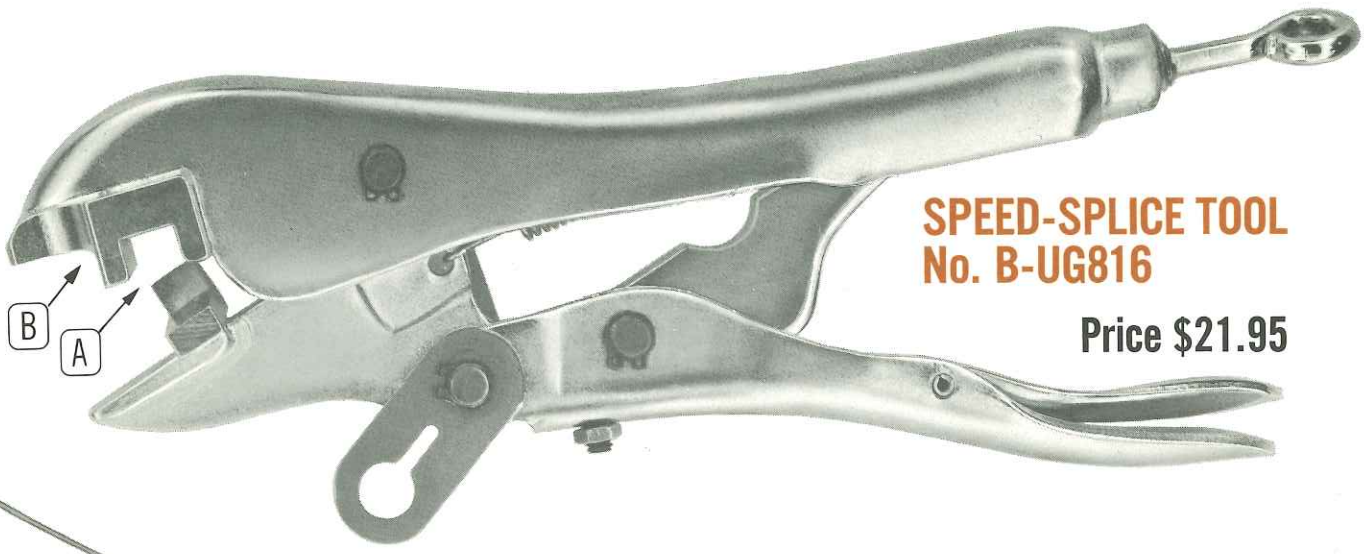
COMBINATION "B" & "SCOTCHLOK"

SPEED-SPLICE TOOL

- The FAST Way To Make Electrical Connections
- Eliminates Insulation Stripping In Most Cases
- Eliminates Soldering
- Precision Made For Long Life



SPEED-SPLICE TOOL
No. B-UG816

Price $21.95

"B" CONNECTOR–
—Squeezed in area "A"

"SCOTCHLOK" CONNECTOR–
—Squeezed in area "B"

Now, a SINGLE TOOL will press "B" Wire and "Scotchlok" Connectors on unstripped wires. A factory set mechanical stop prevents over-pressing. A sound, conductive joint of solder quality is secured every time.

The OK SPEED-SPLICE TOOL saves time—and it saves money. There's a good reason for this —it makes electrical connections much faster. First, there's the time saved because stripping the wire of its insulation is not necessary; second, the electrical connection is made by means of a precision tool that's designed for this **specific** purpose. Built to the most exacting standards of precision and long life, the OK Speed-Splice Tool has a lot to offer.

INSTRUMENT QUALITY MANUFACTURED IN SWEDEN

Slim and smooth-working tools for the service engineer, the electronic, telecommunication, TV and radio industries.

- Slender shape provides excellent accessibility in confined spaces.
- Jaw-opening spring between handles for easier operation.
- Specially hardened cutting edges give a clean and accurate cut.
- Single joint construction, smooth and precise in action.
- Handles, neat and slender, furnished with PVC insulation, provide a firm and comfortable grip for the hand.
- Effective corrosion protection through plastic coating.

Wire Cutting and Metal Trimming Shears

These shears are spring loaded to open automatically and have a mechanical stop to prevent finger pinching. The vinyl-coated handle enables a comfortable grip. The forged stainless steel cutting edge is heat-treated to Rockwell C-60 hardness and has a finish that will not corrode. The cutting edges are serrated for firm wire gripping and will not need sharpening under normal conditions.

The Wire Cutting and Metal Trimming Shears are specifically designed for clean cutting large groups of wires or tabbing soft metals such as copper, lead and mild steel. These shears are also ideal for sheet metal work, for conduit and duct work trimming.

ok® SPEED-WRAP PRECISION TOOL

makes fast...

guaranteed perfect...

SOLDERLESS, WRAPPED-WIRE ELECTRICAL CONNECTIONS

with

1·2·3 *simplicity...*

in less than 1/10th sec.

Adaptable to any product...

Reduces manufacturing costs...

Speeds wiring operations...

Gives you stronger, more reliable connections...

Eliminates completely, costly wiring defects common with soldering or hand-wrapping...

INDISPENSABLE IN THE PRODUCTION WIRING OF ALL TYPES OF COMMUNICATIONS EQUIPMENT, AIRCRAFT, MISSILES, COMPUTERS... OR ANY APPLICATION REQUIRING HIGH DENSITY WIRING.

Important technical story of why you should specify engineered OK Speed-Wrap Tools for solderless connections

1. Simple Tool...so easy to use...

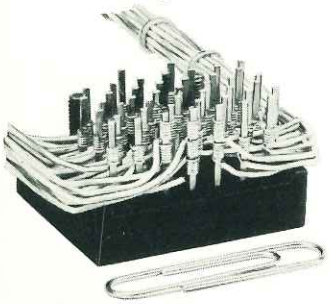
OK Speed-Wrap Gun with interchangeable Coiltite bits and sleeves that accommodate the proper size wire and terminal for any application, are accepted by design engineers as the simplest and best possible precision tools for making perfect solderless electrical connections.

BITS of various sizes are required depending on the size of wire and terminal and the height of terminal.

SLEEVES are required, depending on the size of wire and terminal. Coiltite sleeves are insulated and minimize shorting of adjacent terminals.

(See Specifications Table below for bit, sleeve and wire sizes.)

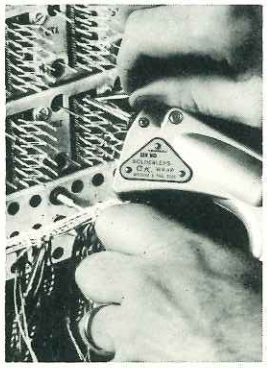
2. Design Engineers recognize savings and efficiency...



132-Connection Capacity of 26 GA. Wire In ½ Cu. In. Space

and OK's ability to make the fastest, most efficient connections possible with absolute uniformity and strength that guarantees PERMANENT ELECTRICAL AND MECHANICAL STABILITY. The proven reliability and trouble-free performance of OK Speed-Wrap Tools assures significant savings of production time and costs, usually 62½% of that of soldered or hand-wrapped connections.

3. Engineered for superior performance...



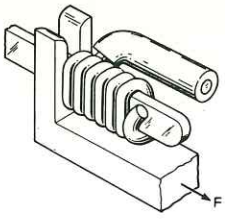
OK Speed-Wrap Tools are simple precision devices, designed for heavy or light duty use. They are ideal for many applications where multiple connections are required or where vibration or heat are a problem and other type of connections are valueless.

ADVANTAGES OVER SOLDERED CONNECTIONS

- GREATER UNIFORMITY
- LESS COSTLY
- FASTER – MORE PRODUCTION
- MORE COMPACT
- GREATER CLEARANCE
- PERMITS MINIATURIZATION
- MULTIPLE CONNECTIONS
- EASIER TO CHANGE
- HIGH PRESSURE CONTACT
- BETTER ELECTRICALLY
- LONGER LIFE
- MECHANICALLY STABLE
- NO HEAT HAZARD
- NO SOLDER FUME DAMAGE

Licensed by Western Electric Company Inc.

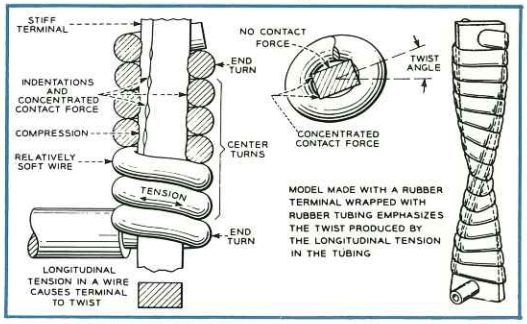
4. Greater strength and stability...



Compact size and ease of handling are OK Speed-Wrap features preferred by O.E.M. operators for use in the automated assembly, installation and servicing of miniature components having closely spaced terminals.

Stripping forces vary with wire size. Normally, solderless connections made with OK Speed-Wrap Tools and 24-gauge wire provide minimum average stripping forces up to 12 lbs. Connections withstand rough handling.

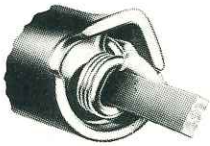
5. Mechanical factors contributing to reliability... versatility...



contact areas of a Speed-Wrap connection remain gas-tight when exposed to temperature changes, corrosive atmospheres, humidity and vibration, and are stronger than soldered ones.

6. To make an OK Speed-Wrap connection is as simple as 1-2-3 Just STRIP-SLIP-ZIP it's done!

STRIP a prescribed solid wire to length. Insert in gun, and anchor.



SLIP over terminal. Squeeze trigger easily and...

ZIP it's done! A perfect, permanent, Speed-Wrap connection... in less than 1/10th second.

WIRE WRAPPING/UNWRAPPING TOOL—With Removable Cap (Shown Below)

NOW Hand Wrap and Unwrap Wire Connections With THE SAME TOOL!

Hand Wrapping–Unwrapping Tool

■ Here's new convenience—plus savings. One tool that does the job of two. Technicians have **both** a hand wrapping and unwrapping tool every time they put this new tool in their kits. Now, this is one "I haven't got the right tool" problem you can forget. Leaving the right tool behind when it is needed can be costly in terms of lost time as well as customer relations.

It's quick and convenient, too. To switch from wrapping to unwrapping (or vice versa) takes only seconds. Just a quick change of the cap from one end to the other—and no hunting around for another tool.

Of course, this new **OK Hand Wrapping/Unwrapping Tool** is made to the same top quality standards you expect from OK Machine And Tool, a leading producer of solderless connection tools.

WIRE WRAPPING/UNWRAPPING TOOL		
Model No.	Wire Gauge	Price
HW UW-224	22 & 24	$24.90
HW UW-26	26	$24.25
HW UW-30	30	$29.90

BARE GROUND WIRE
GW-Strapping Tool

Makes TRUE Wire Wrapped Connections

■ Now, you can be sure of your bare ground wire electrical connections! With **OK's GW-Strapping Tool** you are always certain that they are **true**— each turn exactly the same, uniform, a perfect and equal circle. Made to the exacting standards you have come to expect from OK Machine, the **GW-Strapping Tool** is designed to take the guesswork out of bare ground wire connections. Eliminates costly re-makes.

And **OK's GW-Strapping Tool** is convenient and easy to use. The wire feeds continuously from your spool through the tool. Carefully balanced for easy operation — held like a pencil.

So why take chances? The **GW-Strapping Tool** from OK Machine And Tool assures you of **true** bare ground wire connections you can count on to perform as they should — each and every time.

BARE GROUND WIRE STRAPPING TOOL		
Model No.	Wire Gauge	Price
GW-224	22 & 24	$17.25
GW-26	26	$16.50
GW-30	30	$22.25

SPEED-UNWRAP TOOL

Here's the team that gives you fast and easy removal of wire-wrapped solderless electrical connections...

SU2026

The winning combination is the OK Machine **G100/R3394 Unwrap Tool** and the **SU2026 Unwrap Bit.** Put them together and you have the best there is in money-saving, high-speed wire unwrapping—from OK Machine, the leading producer of solderless connection and unwrapping tools.

SU2026 Inserted in the G100/R3394 Tool

G100/R3394 Unwrap Tool

Designed for either production line or field use, the **G100/R3394** is built especially for unwrapping solderless wire connections. Fast too—just one squeeze of the handle does the job! Equally important, the **G100/R3394** meets all of OK Machine's rigid standards of precision, quality and long life.

SU2026 Unwrap Bit

Made to last, the **SU2026 Unwrap Bit** fits into the **G100/R3394** to complete the high-speed Wire Unwrap combination. Accepts all wire from 20 to 26 gauge.

G100/R3394 Unwrap Tool	**$44.00**
SU2026 Unwrap Bit	**12.75**
High-Speed Unwrap Combination	**$56.75**

HAND UNWRAPPING TOOL

The UW4 hand unwrapping tool is designed for removing solderless wire wrapped connections. It removes 22, 24 and 26 gauge wire without damage to the terminal. The outer sleeve is insulated to permit work on "live" equipment. Inner sleeve retains the removed wire, which is then ejected away from the equipment.

O.K. Machine and Tool manufactures and stocks a complete line of wire wrapping and unwrapping tools.

UW-4 . . . . . $5.75 ea.

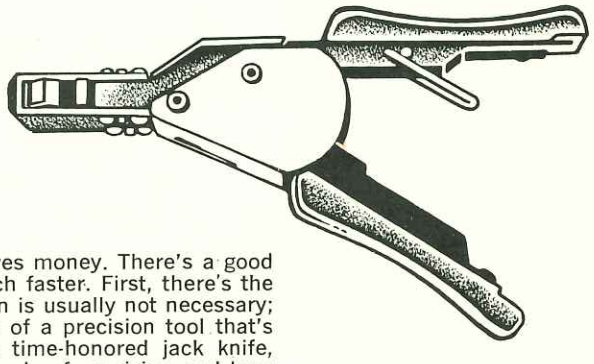
SPEED-SPLICE TOOL

- The FAST Way To Make Electrical Connections
- Eliminates Insulation Stripping In Most Cases
- Eliminates Soldering
- Precision Made For Long Life

The OK SPEED-SPLICE TOOL is designed to press "B" Wire Connectors on the ends of unstripped wire pairs. A built-in ratchet assures that a complete pressing cycle is made before the handles are released. A factory set mechanical stop prevents over-pressing. A sound, conductive joint of solder quality is secured every time.



The OK SPEED-SPLICE TOOL saves time—and it saves money. There's a good reason for this—it makes electrical connections much faster. First, there's the time saved because stripping the wire of its insulation is usually not necessary; second, the electrical connection is made by means of a precision tool that's designed for this *specific* purpose. It replaces the time-honored jack knife, clippers and pliers. Built to the most exacting standards of precision and long life, the OK Speed-Splice Tool has a lot to offer.

Manufactured under license from Western Electric Company

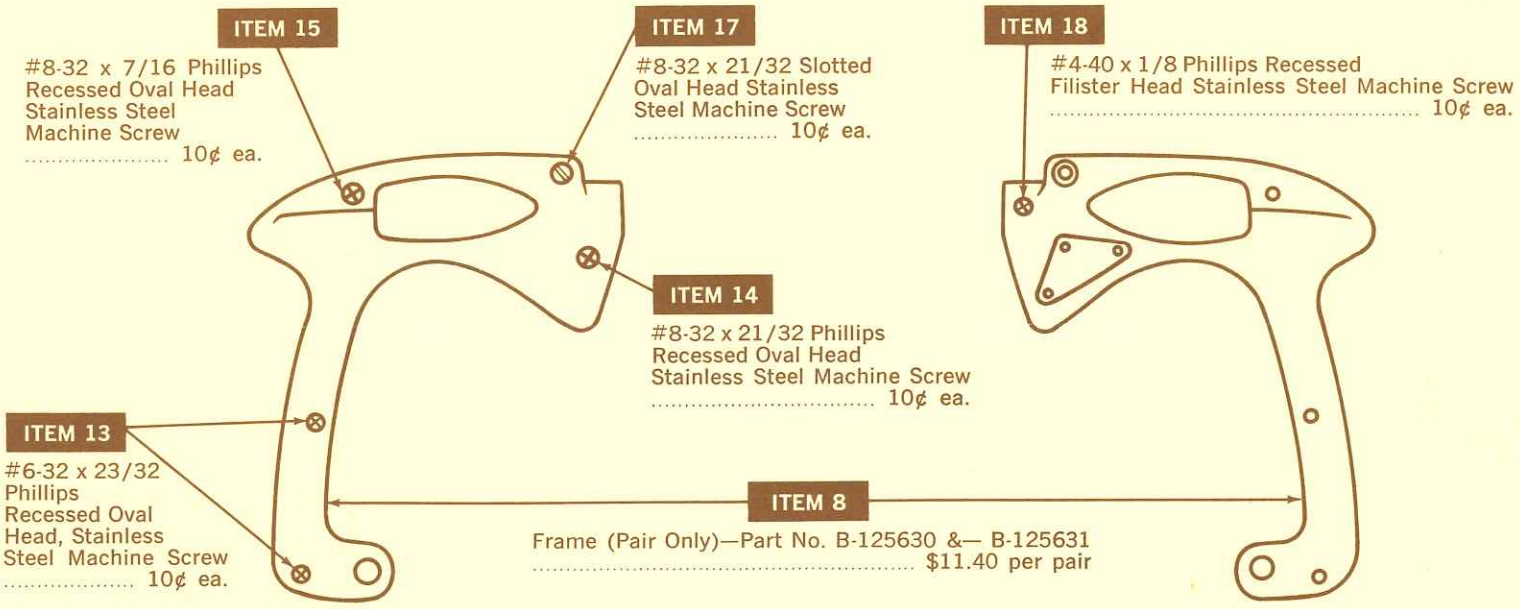
ok® SPARE PARTS FOR WIRE WRAPPING TOOLS (ALL MAKES)

■ If you wish to make your own repairs, OK Machine And Tool Corporation can provide you with every spare part you will need. These parts are identical with those used by OK in the manufacture of new wire wrapping tools; the same quality, precision and specifications. Please order by part or item number.



ITEM 15
#8-32 x 7/16 Phillips Recessed Oval Head Stainless Steel Machine Screw
..... 10¢ ea.

ITEM 17
#8-32 x 21/32 Slotted Oval Head Stainless Steel Machine Screw
..... 10¢ ea.

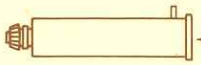
ITEM 18
#4-40 x 1/8 Phillips Recessed Filister Head Stainless Steel Machine Screw
..... 10¢ ea.

ITEM 14
#8-32 x 21/32 Phillips Recessed Oval Head Stainless Steel Machine Screw
..... 10¢ ea.

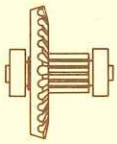
ITEM 13
#6-32 x 23/32 Phillips Recessed Oval Head, Stainless Steel Machine Screw
..... 10¢ ea.

ITEM 8
Frame (Pair Only)—Part No. B-125630 &— B-125631
..... $11.40 per pair

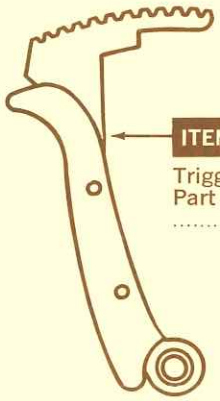
ITEM 10B
Barrel Assembly
Part No. B-125632
..... $12.58 ea.



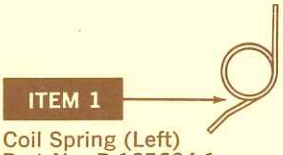
ITEM 10C
(Used On Chuck-Type Tool)
Barrel Assembly
Part No. B-125666
..... $12.58 ea.



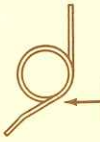
ITEM 11B
Gear & Bearing Assembly
Part No. B-126575
..... $12.48 ea.



ITEM 12B
Trigger Assembly
Part No. B-125640
..... $6.84 ea.



ITEM 1
Coil Spring (Left)
Part No. B-125624-1
..... 15¢ ea.



ITEM 9
Coil Spring (Right)
Part No. B-125624-2
..... 15¢ ea.

ITEM 6
Spring
Part No. B-125629
..... 20¢ ea.

ITEM 19
Nose Piece
Part No. B-125667
..... $2.38 ea.

ITEM 2
Stop (Steel)
Part No. B-125625
..... 15¢ ea.

ITEM 3
Spacer (Neoprene)
Part No. B-125626
..... 10¢ ea.

ITEM 4
Pin
Part No. B-125627
..... 30¢ ea.

ITEM 20
Chuck
Part No. B-125668
..... $4.47 ea.

REPAIR WORK

WE REBUILD WIRE WRAPPING TOOLS* AND D CONNECTOR PRESSERS (All Makes)

NOW—instead of throwing away your used manually operated Wire Wrapping tools and D Connector Pressers—why not save money by having OK Machine And Tool Corporation's experienced staff rebuild them for you? They will be like new—after they are completely disassembled, every part carefully inspected, cleaned and replaced whenever necessary, and the reassembled unit thoroughly tested on our special equipment. We rebuild all manually operated models made by all manufacturers—always to the precise quality standards of OK Machine And Tool, the industry's most experienced producer.

OK Machine And Tool Corporation is licensed by Western Electric Co., Inc.

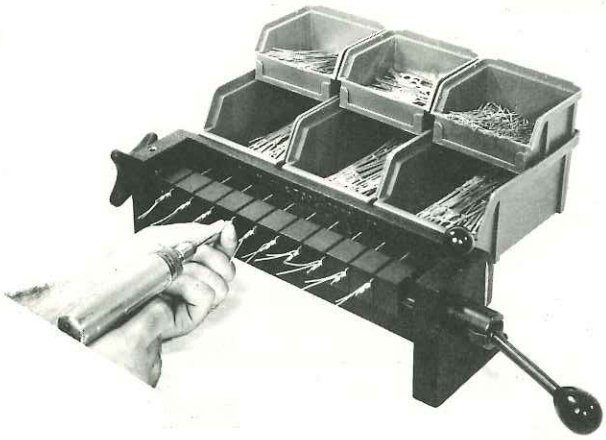
WIRE-WRAPPED CONNECTION TESTER



Bit Qualification Test Fixture - Cam Locking with Utility Trays

#601T.....$300.00

601T mounted on Rolling Cart -

#601T-RC.....$465.00

The 601 series qualifying fixtures are used for testing wire wrapped connections in conformance with Government, Bell Laboratories and NASA specifications. These fixtures are cam operated for holding maximum and minimum test terminals. They can be mounted on any work bench and are also available premounted on custom designed rolling carts (model 601T-RC) for use in narrow service areas.

O.K.Machine and Tool manufactures and stocks a complete line of wire wrapping and unwrapping tools.
